What tool do you use to do that?. Can you share more about your process?

"chudai" or "bokep" and work from there: aged accs, 14+ days warmup if you do posting, buy a blue if you do commenting.

Also think of how you can get the traffic, there are different ways with different approaches: posting, commenting, actions (follow, like, mention, dm).

Reverse engineering is the key

Hello!

I am looking for guidance on **Twitter traffic arbitration** specifically for **18+ content** with **interactive videos** and **clickable links** within the video player.

If anyone has experience with this and is willing to share their knowledge, I am happy to offer payment for a consultation or step-by-step guidance.

Please send me a pm if you are able to help!

Thank you!

What I used to do is a high-quality and profitable business model for a startup. Research the CPA and gather information.
